

Sensitivity & Specificity

- **Sensitivity** is the ability of a diagnostic test, to correctly classify infected individuals
- **Specificity** is the ability of a diagnostic test, to correctly classify healthy individuals

	Infected	Healthy	
Test (+)	80	5	85
Test (-)	20	95	115
	100	100	200

- **Se** 80% and **Sp** of 95%
