Information for Guests

The University of Zurich provides several options for our guests to connect to the Internet:

1. eduroam WLAN

Most universities and research institutions use eduroam. Members of such institutions have Internet access in the public areas of UZH via the eduroam WLAN network. We recommend testing eduroam access at your home university in advance to ensure that the configuration is correct.

2. Internet Access for Guests via UZH WLAN

As a guest at UZH, you can access the Internet everywhere where there is WLAN access: Simply select the uzh-guest WLAN network. After doing so, accept the Terms of Service and fill in the registration form with your mobile phone number. You will subsequently receive an access code by text message, which allows you to unlock Internet access.

This option is available for all cell phone carriers that allow the receiving of SMS in Switzerland.
